

OUTREACH VOLUNTEERS NEEDED

SHIP (Summer Honors Invitation Program) participants will be visiting the College of Engineering on each of the following days from 3:00-5:00 p.m.

Monday, June 12, 2006

Monday, June 19, 2006

Monday, June 26, 2006

Monday, July 10, 2006

We will have the group meeting in 342 Zachry. Dr. Ray James will be giving a 30-45 minute presentation on the ESP program beginning at 3:00 p.m.

We would then like to have at least one Computer Science student for a panel to talk to the students and answer questions about engineering, university life, campus or any other appropriate topics. Refreshments will be provided! You do not have to attend all, any day you are available is helpful. Please contact Kourtney Gruner at kourtney@cs.tamu.edu or 979-862-3405 for more information!

Engineering insights

The **Engineering insights** summer camp is a special 4 day summer program designed to give high school students with an interest in science, mathematics and engineering an opportunity to explore engineering as a career. Eligible students are entering grades 11-12 in high school in Fall 2006. Underrepresented groups in engineering at Texas A&M University (African Americans, Hispanics, Native Americans and women) are particularly encouraged to apply. You do not have to attend all, any day you are available is helpful. Please contact Kourtney Gruner at kourtney@cs.tamu.edu or 979-862-3405 for more information!

Volunteers are needed to speak to the students in four groups of 15 on the following date and time blocks:

June 21

June 28

July 12

9:30, 10:10, 10:50, 11:30 am
